

Memory/Partnerkärtchen (1)

Memory

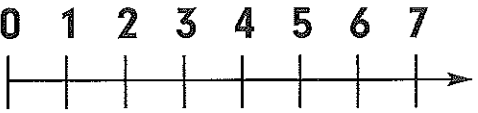

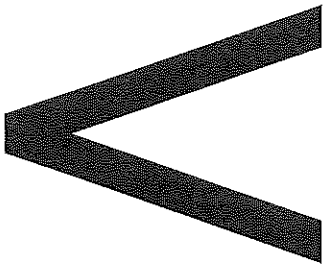

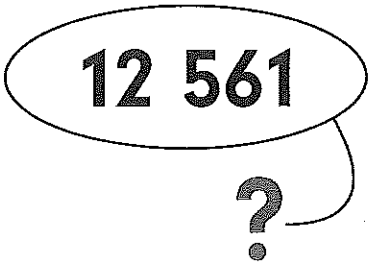

Nachfolgend findet ihr ca. 80 mathematische Begriffe und die dazugehörigen Zeichnungen/Graphiken. Auf Karton geklebt und ausgeschnitten ergeben sich Memory-Karten, mit denen nach den bekannten Regeln in Kleingruppen gespielt werden kann. Als zusätzliche Regel kann man einführen, dass zu jeder aufgedeckten Karte zuerst der grammatisch richtige Text vorgelesen bzw. genannt wird, bevor weitergemacht werden darf. Erfahrungsgemäß benötigt eine Schülergruppe von ca. vier Schülern für ein Set von acht bis zehn Paaren ca. fünf Minuten.

Partnerkärtchen

Hier werden die jeweiligen Paare Rücken an Rücken geklebt – je nach Papiertyp muss ein Zwischenblatt eingelegt werden, damit die Rückseite nicht „durchscheint“. Im Unterricht hält der Lehrer (oder ein Schüler) die Zeichnung hoch, ohne die Rückseite zu zeigen. Ein Schüler versucht, den zugehörigen Begriff richtig zu sagen. Gelingt das, wird die Rückseite gezeigt und die ganze Klasse – oder eine vorherbestimmte Gruppe – liest den Begriff zur Verfestigung vor. (Auch Abwandlungen dieser „Vokabelarbeit“ sind denkbar.)
